75 MWp SPP project in Poltava region

Overview

Location	Kremenchuk district
Land plot area	150 hectares
Usage type	land lease

Grid connection

- construction of 150 kV substation with connection to the existing 150 kV substation Kremenchuk TPP – Kremenchuk, approximate length of route – 2×0.8 km

Project progress

- A 49-year land lease. Category of land plot – for placement, construction, operation and maintenance of buildings and structures of power generating enterprises, institutions and organizations
- Urban conditions and restrictions were received
- Feasibility study "Scheme of 75 MW SPP capacity output located in Poltava region, Kremenchuk town, North Hub" has been developed which has been approved by JSC Poltavaoblenergo and SE "Ukrenergo"
- Technical specifications for the connection of the 75 MW SPP from JSC "Poltavaoblenergo" have been obtained and agreed by SE "NPC "Ukrenergo"
- Engineering-geological surveys were conducted
- Topographic and geodetic survey of the land plot was developed
- SPP construction project has been developed
- Declaration on the beginning of construction work was received
- Pre-PPA has been concluded with SE "Guaranteed Buyer"

Project advantages due to initial analysis:

- Short distance to the connection point High station capacity
- High degree of document readiness
- Technical solutions agreed in the TSO (NPC "Ukrenergo")
- Technical solutions agreed in the DSO (Oblenergo)
- Pre-PPA concluded with SE "Guaranteed Buyer"

Important information

Land lease	20 000 EUR / year
Connection cost	3 000 000 EUR
Specific cost	40 000 EUR / 1 MWp
